

MOSIL SPRAY - 10PS

Plastic Safe ON - LINE Contact Cleaner

A nonflammable, non residual, plastic safe "ON-LINE" Cleaner formulated from carefully selected blend of solvents that removes moisture, oil, grease, waxy sludge, dirt or any other contaminations effectively from Contact Surfaces.

AREA OF APPLICATION

Electrical connectors, switches, bus bars, sliding and rotary tuners, potentiometers, test instruments, rocker / push-pull switches, relays, circuit breakers, transformers, switchgears, bus bars, Terminals, Transformers, motors, generators, control instruments, communication assemblies, starters, solenoids, Capacitors, Fuse Boxes, Ignition systems etc.

An ideal product for cleaning of a component prior to application of anti-corrosion coating, paint or any other type of coatings.

BENEFITS

- ➔ Nonflammable and hence can be used "ON-LINE"
- ➔ Removes surface contamination, dirt, dust, waxy substrates, oil, grease etc. from surfaces.
- ➔ Superior wetting properties for effective cleaning.
- ➔ Leaves no oily residues on the surface thereby avoiding the process of rinsing or wiping etc.
- ➔ Non-conductive, Non-corrosive and Chemically Stable.
- ➔ Offers good resistance to moisture, dirt, dust, fluff etc.

PACKING: 500ml Aerosol Spray

Owing to evolving packaging solutions, user is requested to kindly check the availability of a specific pack size prior to standardization.

CHARACTERISTICS

TYPICAL VALUES

1. Appearance	Liquid
2. Base	Solvent
3. Colour	Transparent
4. Specific Gravity	1.3 ± 0.1
5. Flash Point	None
6. Odour	Faint
7. Copper Strip Corrosion	Negative
8. Breakdown Voltage	15 - 30 kV
9. Di-electric Constant @ 25°C	7 (min)
10. Non-volatile Residues	50 ppm (max)
11. Water Content	50 ppm (max)
12. Boiling Point (°C)	30 (Typical)

Material Safety Information required for safe usage of this product may not be included in this product bulletin and may be sought by contacting MOSIL. Users are advised to go through the Material Safety Data Sheet (MSDS) of this product prior to application / usage of this product.

All statements and information contained in this document are based on the laboratory testing and user experience on actual applications. Owing to the exhaustive possibility of application for which this product may be used and the variety of equipments, performance parameters, environmental conditions and unpredictable human factors, we strongly recommend that this product be tested on the actual application prior to its standardization. All information contained herewith is offered in good faith but without any expressed or implied warranty. This Product Bulletin may already have been revised considering the availability of raw components, legislation, user experience & expectations and enhancement of knowledge of the development team of MOSIL. Users are requested to kindly seek the latest version of this product bulletin by contacting MOSIL. Information provided in this Product Bulletin is based on the generalised expectations and requirements of users. Additional information for this product may also be sought by contacting MOSIL.
