

# MOSIL SPRAY - SCB

## Silencer Coating Spray - Black

SPRAY - SCB is a heat resistant coating (up to 400°C corrosion protective coating for metals) based on a special combination of pigments and modern resins. It builds up a heat resistant film that has good adhesion and anti-corrosion properties. The spray can be used on many metals, such as iron, steel, galvanized steel, white iron and cast iron, copper, brass etc

### AREA OF APPLICATION

It can be used as a primer under a (heat resistant) topcoat or as a one can system (2 layer primer/topcoat).

### METHOD OF APPLICATION

1. Shake the aerosol well before use for 2 to 3 minutes
2. Spray several thin layers from a distance of approx 20-30 cm
3. After use, clear the nozzle by spraying up side down until only pure propellant emerge
4. Free surface of rust and dirt; make it dry

### BENEFITS

It build up a very high heat resistant film that has good adhesion and anti - corrosion properties and give many things, such as exhaust pipes, grills and stoves a new look.

**PACKING:** 500ml Eco-friendly Aerosol Spray

Owing to evolving packaging solutions, user is requested to kindly check the availability of a specific pack size prior to standardization.

## CHARACTERISTICS

## TYPICAL VALUES

1. Appearance	Dry Film
2. Color	Black <i>(Minor variation in the color has no effect on the performance of the product)</i>
3. Specific Gravity @ R. T.	0.95 ± 0.1 <i>(Bulk)</i>
4. Odor	Faint
5. Drying Time for handling	5 - 10 minutes
6. Film Type	Dry
7. Propellant	Eco-friendly Blend of Propane & Butane
8. Container	Aerosol tin with 25mm valve and actuator

*Material Safety Information required for safe usage of this product may not be included in this product bulletin and may be sought by contacting MOSIL. Users are advised to go through the Material Safety Data Sheet (MSDS) of this product prior to application / usage of this product.*

*All statements and information contained in this document are based on the laboratory testing and user experience on actual applications. Owing to the exhaustive possibility of application for which this product may be used and the variety of equipments, performance parameters, environmental conditions and unpredictable human factors, we strongly recommend that this product be tested on the actual application prior to its standardization. All information contained herewith is offered in good faith but without any expressed or implied warranty. This Product Bulletin may already have been revised considering the availability of raw components, legislation, user experience & expectations and enhancement of knowledge of the development team of MOSIL. Users are requested to kindly seek the latest version of this product bulletin by contacting MOSIL. Information provided in this Product Bulletin is based on the generalised expectations and requirements of users. Additional information for this product may also be sought by contacting MOSIL.*
