## Areas of Expertise

- Production Scheduling
- Production Management
- Scope Management
- Time Management
- Quality Management
- Health & Safety

## SKILLS

- Strong analytical and critical thinking abilities
- Skilled in managing multiple production tasks efficiently
- Proficient in SAP and supply chain management
- Knowledge of sustainable manufacturing practices
- Experienced in leading, motivating, and managing production teams
- Engineering expertise in production planning, process optimization, and quality improvement.

## LANGUAGES

- English (Fluent)
- Hindi (Native)
- Marathi (Native)

## EDUCATION

- Diploma in Mechanical Engineering (Bharti Vidyapeeth, Kharghar- 2018)
- SSC, Maharashtra State Board (Maharashtra State Board-2014)

# Nitin Patil

## SUMMARY

Mechanical Engineer skilled in production scheduling, supply chain optimization, and process engineering. Experienced in Lean and Six Sigma practices to improve efficiency, productivity, and product quality.

## EXPERIENCE

### Production Planner & Engineering | Fineotex Chemicals Ltd.

March 2024 – Present

- Developed and managed production schedules to optimize efficiency and meet targets.
- Coordinated cross-functional teams and allocated resources to ensure smooth workflow.
- Monitored inventory and procurement to prevent delays and maintain continuity.
- Analysed production data, generated performance reports, and recommended improvements.
- Ensured compliance with quality, safety, and environmental standards.
- Implemented process improvements to enhance productivity and reduce defects.

### Production Incharge | Scottish chemical industries

August 2023 – Feb 2024

- Planning and ensuring smooth operation of overall Plant production as per the Standard operating procedure and allocation, utilization of resources.
- Accountable on Budget towards Raw materials & its Consumables with respect to Specific consumption.
- Monitor manufacturing performance in real time and adjust production in a timely manner to improve performance.
- Create and maintain manufacturing instruction, packaging instructions, and standard operating procedures.

### Assistant Manager (Production) | Deepak Fertilizers and Petrochemicals

April 2021 – July 2023

- Assisted shift in-charge in planning and material packing schedules.
- Monitored warehouse, bagging area, and overall process flow for quality compliance.
- Managed manpower allocation including operators, housekeeping, and contract staff.
- Supported preventive, routine, and shutdown maintenance planning.
- Ensured availability of materials, updated warehouse stock, and tracked reorders in SAP.
- Issued permits to service departments for breakdown and scheduled maintenance.

### Quality Check | Atomberg Technologies Private Limited

Sep 2020 – March 2021

### Milling and Lathe Machine Operator | P.S. Engineering

Jan 2018 – April 2020
