---

## Professional Summary

Results-driven Life Sciences professional with a strong background in research, quality control, and clinical trial management. Adept at project coordination, cross-functional team collaboration, and process optimization. Experienced in handling multiple stakeholders, ensuring compliance, and streamlining workflows. Seeking a transition into a Project Management role within the biotech, pharmaceutical, or healthcare technology sectors.

---

## Core Competencies

- Project Coordination & Stakeholder Management
  - Process Optimization & Workflow Improvement
  - Cross-functional Team Leadership
  - Risk Assessment & Mitigation
  - Budgeting & Resource Allocation
  - Quality Assurance & Compliance
  - Data Analysis & Reporting
  - Research & Development Oversight
- 

## Professional Experience

### **Syngene International Ltd. – Bangalore, India**

*Associate Scientist / April 2024 - Present*

- Led cross-functional teams for assay development and validation, ensuring timely project execution.
- Managed in vitro drug screening processes and streamlined lab audits, reducing turnaround time.
- Oversaw instrument maintenance, inventory, and compliance, improving operational efficiency.

### **IQVIA – Mumbai, India**

*Flow Analysis Scientist / August 2023 – February 2024*

- Coordinated data analysis for clinical trial samples using flow cytometry.
- Acted as a liaison between global labs and analysis teams, ensuring data release within strict deadlines.

- Managed and optimized data processes on QLIMS and LabMatrix systems, enhancing efficiency.

**Serum Institute of India** – Pune, India

*Quality Control Officer | April 2021 – August 2022*

- Supervised quality control testing for COVID-19 vaccine production.
- Led inventory and procedural documentation, improving compliance with regulatory standards.
- Coordinated lab audits and streamlined documentation workflows for better operational effectiveness.

**Syngene International Ltd.** – Bangalore, India

*Senior Research Associate | March 2019 – April 2021*

- Managed project timelines for multicolor flow cytometry panel development.
- Supervised lab technicians and ensured maintenance of high-end flow cytometry instruments.
- Developed standard operating procedures, improving research efficiency and compliance.

**Advanced Centre for Treatment Research and Education in Cancer (ACTREC)** – Mumbai, India

*Flow Cytometry Technologist | February 2018 – February 2019*

- Led analysis of leukemia and lymphoma cases, optimizing workflow for faster diagnostics.
- Maintained quality control for lab equipment and prepared antibody cocktails, improving accuracy.

---

## Education

**Bharathiar University** – MSc. Biochemistry (2017) | CGPA: 7.5

**Pravara Institute of Medical Sciences** – BSc. Medical Biotechnology (2015) | 67%

---

---

## Certifications & Training

- Project Management Fundamentals (In Progress)
  - Data Management & Quality Control in Clinical Trials
  - Lean Six Sigma (White Belt)
-

## **Technical & Soft Skills**

- MS Office Suite (Excel, PowerPoint, Word)
  - Data Visualization & Reporting (GraphPad Prism)
  - Scientific & Technical Writing
  - Leadership & Team Collaboration
  - Time Management & Prioritization
- 

## **Publications & Extracurriculars**

- Published research on advanced flow cytometry techniques in B-lymphoblastic leukemia - Cytometry B Clin Cytom. 2020;98(1):57-67. doi:10.1002/cyto.b.21831.
  - Columnist at Headline Bulletin (2022-2023), writing on scientific advancements.
